From the Director's Desk

It my privilege to say that in our democratic India 66% of population lives in villages. Where are the poverty, unemployment, health facilities and percentage of literacy the primary problems, our economic system is based on agricultural, social forestry and rural employment, I am from remote small village and grown up by facing above problem.

As I started my careers as social worker in 1990 I concentrate in the fields of forest which is the primary sources of life in rural area. With the help local resident I started CHIPKO movement to saved valuable forestry.

Then I just educated in awareness for cleanness and provide better facilities and atmosphere to new generation who will be our tomorrow.

Finally I am with physical disabled people. As many observation in continuous mainly and it touch with the so called people. I stared a program for them with collaboration with some foreign agency.

Physically disabled people just like us but we have to boost their confidence. My NGOs is working with them to make just like us by making them social aware practically strong and making them confidence to do equally and in parallel with us. We have to provide them facilities that they can generate for self employment and beneficially strong.

Lastly, I have earnest request with you to join my holy program to just view equal chance, love and affection so they can stand equally with us.

Director, MSS

Mehdilal

Silver jubilee

It is a great achievement for us to completed 25 years of Margdarshak seva sansthan, we started as a small community-based development organization in 1995 and now work in several districts. We are thankful to the community and different agencies, especially for their support in our growth," said Mr Mehdi lal yadav the executive director of the MSS. The celebration was also an opportunity for the different stakeholders as well as the staffs of the organization to share their feelings and experiences. MSS effort has helped us diversify and increase awareness amongst people about forest conservation, women empowerment, education, livelihood & health and people with disabilities in a border range.

This occasion talked about the achievements and success stories of our organization last 25 years regarding to support and promote their livelihoods, leadership, skills, certifications, assistive devices etc. more than 30 thousand people with disable through inclusive development of people with disabilities, women and children, forest conservation through CHIPKO movement, more than 10 crores tree conserve to IFFCO power and coal project etc. The Function was presided by the political leaders, govt. officers, and community leaders. The Cultural program performed by people with disable and staff members. A Special group of people dance artists performed traditional folk dance.

Program achievement in the year of 2020

Number of Participant	Health & rehabilitation
320	Medical rehabilitation is very essential part for People with disabilities because without medical certification people with disabilities don't access their medical services or any other financial, education and social security schemes. In the year of 2020 by the collaborated with govt. officers along with medical officers, DPOs leaders, CBR committee members & the efforts of CBR workers successfully achieved the target towards certification & primary health care services from district medical hospital and PHCs centre.
69	Physiotherapy is one of the best practices for people with disability with the support of parents and CBR workers try to access physical movement of person with disabilities and children with disabilities through physiotherapy.
25	Physiotherapy training addresses the illnesses, or injuries that limit a person's abilities to move and perform functional activities in their daily lives. Physiotherapy can be defined as a treatment method that focuses on the science of movement and helps people to restore, maintain and maximize their physical strength, function, motion and overall well-being by addressing the underlying physical issues.
109	Accessibility of people with disabilities played major role in their day to day life because without support of assistive devices of people with disabilities don't access their body. 	COVID-19 Response
49480	To provided immediate relief to the people affected by Covid-19 and Subsequent Lockdown COVID-19 which has become a global pandemic, is struggling with the effects and infection of the Corona Virus, while the knock of this virus is happening in our state, the government in the entire district is in alert mood to complete all the exercise
	Forest conservation
578	Awareness amongst community people regarding forest conservation, natural resources and biodiversity which is surrounding of nature to keep a balance between eco system and environment also aware about FRA/CFR act 2006-2007 policy regarding rights of forest production, NTFP, water, land for importance of CFR approval letters and its implantation procedure regarding rights of forest, water, natural resources, wild food, flowers, rivers, wild life. Even aware about PESA act and its implement procedure at grassroots level
356	Water pollution is one of the measure cause of livelihood because after the industrialrevolution it has a very bad effects on livelihood and specially water, whatever things came from mines like dust and poison gas are polluting water and also effecting river. For that reason it was harmful to human being, animal and marine animals. Because of this polluted water people are suffering from various skin diseases. Polluted water is also causing extinction of animals and affecting the agriculture.

Programs and Reviews

Certification of people with disability:-

People with disabilities faced many problems like: access to pension, school admission, registration in employment sector or any other govt. facilities like: opening saving passbook in bank for access financial services through bank. Without medical certification people with disabilities couldn't access assistive devices from department of social welfare or any other govt. agency also without certification they couldn't access medical services. Due to these causes MSS advocacy with govt. officers & volunteers like: CMHO, govt. officers, PRI members, DPOs leaders, CBR committee members, collector, SDM about provide medical certificate for people with disabilities by the

support of district hospital. Therefore MSS organized medical camps for registration of people with disabilities at district level medical board camp. Every Saturday of month medical certification boards camp has been organized in Surajpur district hospital with this every Tuesday and Friday of every week medical certification boards camp been organized in Ambikapur hospital also. Through medical certification camp in both area people with disabilities check and get their physical treatment. People with disability above 40% of disabilities get their certificate through the support of health care provider

Physiotherapy

Physiotherapy training addresses how to become a Physiotherapist for an example: Physiotherapists employ a variety of techniques, depending on the nature of the injury or problem they are treating. The most common physiotherapy techniques are: Manual manipulation: Moving joints and soft tissue helps to improve circulation, drain fluid from the body, and relax overly tight or muscles with spasms of people with disabilities. Electrical nerve stimulation: Small electrical currents

delivered to affected areas helps to suppress and block pain signals to the brain. Acupuncture:

Needles stimulate the nervous system and work to dull pain, release muscles, boost the immune system and regulate various body functions. Demonstration: Teaching proper movement patterns allows people with disabilities and their

parents to help them. Functional testing: Testing a people with disabilities to assess his/her physical abilities. Device provision Prescription, fabrication and application of assistive

Assessment of people with disabilities

The situation of people with disabilities was very difficult to access daily activities like: bathing, wearing dress, walking. Because they don't have any assistive devices for access their (Activity Daily Living). But they were used wooden devices themselves. Unfortunately, that is unbalanced and not comfortable for people with devices. Due to their physical condition their family members were mentally very depressed. The used of wooden devices were very pain full for them. Thus, they were more struggles for that. Especially for children with disabilities and old age people with disabilities

it's very difficult to access wooden devices in bathroom/toilet, school, public places, bus stand & local market. People with disabilities couldn't

afford assistive devices because they don't have financial strength. The negligence of local bodies' leaders' people with disabilities couldn't get devices. Therefore they were mentally very depressed. So, MSS had organized mobilizing meeting with parents, teachers, villagers, local leaders, political leaders, govt. officers, PRI leaders, SHGs leaders for assessment of people with disabilities through the department of social welfare for provided assistive devices.

Education

Inclusive education

Education refers to the discipline that is concerned with the method of teaching and learning in school or school like environments as opposed to the various non-formal and formal means of socialization. Education is the tool which helps the people become the better citizen, to difference between the good and bad,

to get the better job opportunity. It shows us the importance of hard work, at the same time, help us to grow and develop. Thus the education helps us shape the society to live in by knowing the respecting right; laws and regulation. Person with disabilities often have lower education accomplishments, poor health conditions, higher

poverty rate and less economic engagements than people without disabilities. They are disabled not only with their bodies but society as well. Children with the disability faces discrimination in terms of the unable to access the teaching learning materials and the communicate with their tutor and the fellow mate. This leads the low participation of the child with the disability.

As per the Right of Children to Free and Compulsory Education (RTE), 2009, Children with learning disabilities are also covered. They broadly grouped under Dyslexia (difficulty to processing language), Dyscalculia (difficulty in math skill), (difficulty in written expression, and Dyspraxia (difficult in fine motor skill).

However despite section 26 of the PWD, Act, 1995; providing access for free education to all Children with Disabilities (CwDs) in an appropriate environment, the education level of PwDs is low. The objective of mainstreaming of CwDs in the general education system through Inclusive Education was realized when Article 21-A was inserted in the Constitution (86th Amendment in 2002) making elementary education a fundamental right. Its consequential legislation, the RTE, School competitions& Education for children with disability Through school competition such as, general knowledge competition, sports activities and art and cultural competition organized in between children without disabilities and children with disabilities about reducing discrimination, stigma, amongst them self.

Child safe guarding training

Child safeguarding training for staff members is very essential because child abuse occur within the families relatives, neighborhood, schools, and communities centre. By this training staff members and parents were trained about how to protect children with/without disabilities from exploitation, it may occur physically and mentally through neglect of parents. We committed to creating a culture of openness and mutual accountability at the work place. This culture will enable all child protection concerns to be raised and discussed and where abusive behavior can and must be challenged.

- Contribute to create and/ or uphold an environment where children are listened to and respected as individuals and which is safe, positive and encouraging to them.
- Ensure the use of the 'Two Adult Rule'. This means, when interacting with children take care that another adult is present or within reach.
- Ensure physical contact is at all times appropriate and not an invasion of the child's privacy.
- Use positive, non-violent methods to manage children's behavior.
- Respect children's dignity and their need to be protected at all times when taking photographs, filming or writing reports for public relations work.

- Protect and handle personal data of children with care and ensure that this is also respected by third parties who receive information about children from MSS or its partner organizations.
- Hold, fondle, kiss, cuddle or touch children in an inappropriate and/ or culturally insensitive way.
- Engage in activities involving close body contact with children beyond the professional requirements. Act in ways that may be abusive or may place a child at risk of abuse.
- Make sexually suggestive comments or actions to a child, even as a joke.
- Engage in sexual activity or have a sexual relationship with a child, regardless of consent or local custom. Mistaken belief in the age of a child is not a defense.
- Marry a person below the age of 18, regardless of consent and local custom.
- Assist a child in tasks that he or she can do unaided or unless requested (such as taking them to the toilet, bathing or changing clothes). Hit or otherwise physically assault or physically abuse children. All disciplinary measures are non-violent and do not humiliate.

- Act in ways intended to shame, humiliate, belittle or degrade children, or otherwise perpetrate any form of emotional abuse. Discriminate against or favor particular children to the exclusion of others. Develop relationships with children that could in any way be deemed exploitative or abusive. Spend excessive time alone with a child, away from others, behind closed doors or in a secluded area (see 'Two Adult Rule' above).
- Take a child to their home or visit a child at their home where they may be alone with that child, or sleep in the same room. Sleep in the same bed as a child or allow a child to stay overnight at their home unsupervised. Condone, or participate in behavior with children which are illegal, unsafe or abusive, including being part of harmful traditional practices, spiritual or ritualistic abuse. Exploit children for their labor (e.g. domestic servants) or for sexual purposes (e.g. prostitution)²⁴ or trafficking of children; The definition of child domestic work (house help) does not include occasional babysitting, gardening, help during school holidays or out of school time. Take a child alone in a vehicle unless it's absolutely necessary and with parental and managerial consent.

At lastly, all the CBR workers were agreed on this code of conduct of child safe guard policy and they were sign on this agreement. 2 cluster level Child safe guarding training has been organized with 68 members were participated.

Celebration of children day

On that occasion of Children's day the executive director of MSS Mr. Mehdilal taught about right to education of inclusive children, right to freedom, right to good nutrition because every Child with disabilities have right to education,

freedom, living and security for that causes children parliament take initiative for CWDs social, political, economical and cultural development. 65 inclusive children were participated in that event.

Home based education

Children with/without disability very high support needs are equal holders of this fundamental right. Through the proposed Amendments to the Right to Education (R.T.E.) Act, 2009, this fundamental right of the child is being watered down and instead of a school, home is being offered as a legitimate, alternative option for the education of children with disabilities. We believe that this would be a violation of the right of the child to legitimate

quality education. Generally home-based education is defined as the education of children with severe intellectual/physical disabilities, who can be educated in the combination of home-based and alternate educational settings to enable them to achieve independent living skills. Home-based education aims at school preparedness and preparation for life. Alternate educational settings provide opportunities.

Livelihoods rehabilitation

Skill development training/linkages with capital fund and govt. Schemes

The objective of this training is enable people with/without disabilities to take up training in order to secure better livelihood. Through this training learned agro& non agro need based income generation training as per their livelihood condition of people with/without

Disabilities access skill development trainings on mushroom production at community level as well as tailoring training at block level along with learned how to improve their market relevant skill. As per the skill development training of inclusive people identified those who are capable

to access livelihood opportunity through capital fund small scale of trade i.e. (IGPs) like:

mushroom production, tailoring, general store. After skill training access capital fund through MSS for microenterprises of people with disabilities and

Formation and strengthen FPOs

The purpose of FPOs is to build a prosperous and sustainable agriculture sector by promoting and supporting member-owned Producer Organizations that enable farmers to enhance productivity through efficient, cost-effective and

without

disabilities.

As per people with disabilities economic rehabilitation linkages those to different govt. schemes like: pension, renewal of ration card, Pradhan mantri awas yojna, social security schemes etc.

sustainable resource use and realize higher returns for their produce, through collective action supported by the government, and fruitful collaboration with academia, research agencies, civil society and the private sector. (FPOs). 1 tailoring producer group has been formed with 25 inclusive member were involved. 3 capacities build training for board of director of FPOs has been organized at mati resources center at kataroli village, in that training trained about how to formation IFPOs, importance & objective of FPOs, role and responsibilities of FPOs members as well as how to elect board of director from FPOs and their responsibilities.

International world disability day

The day aims to promote an awareness of disability issues and fundamental rights of persons with disabilities. It is important to integrate disabled persons in the main stream of society. The day was greatly emphasized to celebrate it yearly in order to promote the awareness about the people with disabilities as well as to encourage them by implementing a lot of assistance in their real life to enhance their way of life and remove the social stigma towards

them. On 3rd December 2020 MargdarshakSevaSansthan again celebrated international world disability day with convergence with department of social welfare at Mangal bhawan of Surajpur district. The vital purpose of this day celebration is to improve the understandings of the people with disability different issues as well as get together to support them to improve the quality life of people with disabilities.

Celebration world mental health day

The objective of world mental health day is raising awareness of mental health issues and mobilizing efforts in support of mental health. The Day provides an opportunity for all

On that occasion people were knew about different legal provision for mental illness like: The 2016 Act allows for 4% reservations for

stakeholders working on mental health issues to talk about their work, and what more needs to be done to make mental health care a reality for mental health in our society

People with mental illness in employment in all government establishments sector. Mental healthcare" includes analysis and diagnosis of a

person's mental condition and treatment as well as care and rehabilitation of such person for his mental illness or suspected mental illness. "Mental healthcare" includes analysis and diagnosis of a person's mental condition and treatment as well as care and rehabilitation of such person for his mental illness or suspected mental illness; mental health establishment means any health establishment. mental illness maintained by the appropriate Government, local authority, trust, whether private or public,

corporation, co-operative society, organization or any other entity or person, where persons with mental illness are admitted and reside at, or kept in, for care, treatment, convalescence and rehabilitation. November every year as 'Constitution Day' to promote Constitution values among citizens

On 26th/11/2020 organized constitution day at Nawapara village under premnagar block of surajpur district of C.G. the resources persons of that day were govt. officers and political leaders. The 'Constitution Day' will be a part of these year-long nationwide celebrations. This will be a tribute to Dr. Ambedkar, who played a seminal role in the framing of the Indian Constitution as the Chairman of the Drafting Committee of Constituent Assembly," a press release issued by the Press Information Bureau said in 2015. In May 2015, the Union Cabinet announced that November 26 will be observed as Constitution Day to promote "constitutional values amongst

citizens". This was the year that marked the 125th birth anniversary of BR Ambedkar, the Chairman of the Drafting Committee of the Constitution. Other members included Jawaharlal Nehru, Vallabhbhai Patel and Shayama Prasad Mukherjee, among others. The central government's decision was seen as a move to claim Ambedkar's legacy, in a bid to reach out to the Dalit community. Following the Cabinet meeting in 2015, then Minister of Social Justice and Empowerment Thawar Chand Gehlot said, "Rahul Gandhi and his party never honored Ambedkar. Neither did he get the Bharat Ratna nor was his oil painting installed in Parliament premises as long Congress was in power." **Total 145 inclusive people were participated.**

COVID-19 Response

To provided immediate relief to the people affected by Covid-19 and Subsequent Lockdown. हम एवं हमारी अवधारणा

मार्गदर्शक सेवा संस्थान एक अलाभकारी एवं गैर राजनैतिक संस्थान है जो छत्तीसगढ़ में गरीब, आदिवासी, महिलाओं, युवाओं एवं दिव्यांगजनों के लिए समुदाय आधारित सामाजिक, शैक्षणिक एवं आर्थिक विकास के लिए विगत 20 वर्षों से प्रयासरत हैं। हमारा प्रयास है कि स्वालम्बी, स्वशासी एवं स्वाभिमानी समुदाय स्थापित हो। आज के विध्वंसक विकास के कारण आजीविका के प्राकृतिक संसाधनों को समाप्ति के कंगार पे खड़ा कर दिया है। जिसके परिणाम स्वरूप आज कई प्राकृतिक आपदाओं पर गौर किया जा सकता है। अगर इसी गति से तथाकथित विकास चलती रही तो, हमारे जीवन का आधार ही समाप्त हो जायेगा। हमारे जीवन का सीधा रिश्ता प्रकृति से जुड़ा है वन जल एवं जमीन जीवन का आगे बढ़ाने के महत्वपूर्ण साधन है। जंगल जितना विधितापूर्ण होगी, मिट्टी उतनी ही सजीव होगी, पानी उतना ही स्वच्छ होगा। ये तीनों जितना समृद्ध होंगे, जीवन उतना ही सहज होगी। इस कारण हम सबको आजीविका के प्राकृतिक संसाधन एवं जीवन के आधार जल, जंगल एवं जमीन को बचाना आवश्यक है। आशा है कि इनके संरक्षण के लिए आप भी एक कदम अवश्य बढ़ायेगें, आप का एक कदम पूरे विश्व के जीवन को आधार दे सकेगा।
